Synchronize automation	yes	yes	Yes
Synchronize to test suites	yes	yes	yes
Two-way synchronization (beta)	no	no	yes
SpecFlow+ Support	no	no	yes

<sup>1</sup> The project is the Visual Studio project containing feature files (aka SpecFlow project) with no more than 10 people working (modifying files) in the project. If more than 10 people working on a project, the number of licenses needed has to be calculated based on the number of people: every 10 people counts as one project (rounded up). E.g. if 26 people working on a single project, this project needs 3 project licenses.

<sup>2</sup> All prices excluding 27% VAT, purchase possible through bank transfer.

<sup>3</sup> Scenario Outlines count as multiple scenarios based on the number of examples defined for the scenario outline.
